LANGUAGES

Amharic, English

ORGANIZATION AND CERTIFICATION

Qemer Software Technology – Full Stack Developer (Frontend Focus)

<https://www.qemertech.com/>

GeezTech Security Tester – Cybersecurity & Ethical Hacking Course

<https://course.geezsecurity.com/>

WORK EXPERIENCE

I have not started professional work yet because I have not graduated. However, I have gained strong practical experience through academic projects, technical training, and personal development work.

PERSONAL PROJECTS

Restaurant Management System

A web-based system developed to manage restaurant operations such as orders, menu items, customers,

and reports, with a strong emphasis on frontend usability and clean UI design.

Hospital Management System

A comprehensive system designed to manage patient records, appointments, staff information, and billing. The project focuses on secure data handling, organized workflows, and responsive frontend interfaces.

Qemer Software Technology Portfolio

A responsive portfolio website highlighting Qemer Software Technology projects, with strong focus on frontend UI, web responsiveness, and modern design principles.
